

Simplicity at Work.

Easy to use. Easy to scale. Easier to manage. Enables teams to work together effectively, from anywhere.

Brightspeed Voice+ with RingCentral enables your business to bring teams together with a communication and collaboration solution that is simple, scalable, and helps drive your team's effectiveness. Change the game for your business by choosing **Brightspeed Voice+** with RingCentral. It's simplicity at work.

+ Phone.

So much more than a business phone system

Customers enjoy a phone with integrated messaging, video, SMS, fax, analytics, AI, mobile-first capabilities, embedded apps, and APIs to optimize efficiencies with uncompromising security.

+ Messaging.

Conversations made better with team chat & messaging

Enjoy unlimited messaging that allows employees to collaborate with teams, partners, customers, and more—all you need is an internet connection and an email address.

+ Video.

Reliable online video meetings & conferencing

Video connects teammates, clients, and everyone else, all in one app that is easy to use, easy to manage, and easy to set up.

Simple.

Smart.

Secure.

Reliable.

Scalable.

Brightspeed Voice+ with RingCentral operates on desktop computers and mobile devices offering full collaboration capabilities from anywhere for a seamless customer and employee experience. Choose IP Phone models to meet employee needs based on quantity of lines or capabilities such as Bluetooth or WiFi. Leverage an analog terminal adapter to support communication equipment like overhead paging and FAX machines.

- New IP Phone and Analog Terminal Adapters available to purchase or lease
- Desktop and Mobile device application to facilitate collaboration from anywhere
- Brightspeed resources to design and support the solution

Choose the features that best fit your business needs.

Advanced Seat

Includes voice features plus the RingCentral desktop and mobile application for audio and video calling, chat, file share, Virtual FAX, and web meetings.

Ultra Seat

Increase your collaboration experience with integrations to CRM, Google, and Microsoft applications. Enable auto call recording and increase call recording retention.

Limited Extension

Support your common areas or retail spaces with telephony services that are not assigned to individual user.

About Brightspeed Business

Brightspeed Business is dedicated to forming meaningful relationships and creating brighter business outcomes through commitment, collaboration and partnership to help our customers succeed. Our collective focus and passion for transforming the internet experience will allow us to connect more customers and provide the access that empowers all communities to make life a little simpler, no matter where they live, work or operate.
